

Mo3een Guide

-Section 1: Majors

In this section you will come across 6 of the most popular majors that students choose to enter in college, along with the number of years a student must complete their education to pursue them.

-Section 2: Video of the AUC campus

In this section, you will see a video of the AUC campus, which is one of the most well-known colleges in Egypt and boasts an amazing campus with lots of amenities for its students.

-Section 3: Colleges

You will learn more about two universities in this area. The first is the American University in Egypt, which I previously discussed in the last section. In the other section, Cairo University in Egypt is discussed. There, you will discover a brief overview of both institutions. By clicking on the links below the material, a separate tab of a PDF will open with additional details about how to apply and what information is required of a student applying there.

-Section 4: Opinions

The thoughts of students at these colleges are included in this area; they will give you an idea of what to anticipate and what it's like to study there. These are all genuine opinions that I got from a reliable source.

-Section 5: Contact

This is the last and last section of the website where students can get in touch with me by mail if they would like further information about these universities.

Disclaimer: Although this website is only a startup and a draft of my intended design, I would want to add additional colleges and make the site more user-friendly so that more institutions and details can be added more quickly.
